

**8 Week Online Surface Design Class with Carol Gouthro,
Wednesdays, January 11, 18, 25, February 1, 8, 15, 22,
March 1**

10:00-12:00 AM PST Or 3:30-5:30 PM PST

This is a friendly, informative, supportive class with many continuing and new students every session. Every week I do an image share of the work of one or more artists (historical or contemporary) whose work I find interesting and who are working with a certain process or surface technique. They can be ceramic artists, painters, sculptors etc. Next I do my weekly demonstration for the group and give the assignment for the week. I then look at everyone's work one at a time, from the previous week and discuss it, but always in a positive way pointing out strengths and offering suggestions about how to improve or advance exploration.

\$310 US for 8 weeks includes:

Weekly demonstrations

Weekly image shares showing examples of both contemporary and historical ceramics and artists

Weekly assignments

Weekly sharing and discussions of participants work

There is a Group Facebook Page which is very active, for current and past participants to share images, discuss ideas and ask questions during the week.
